

Proposal FLARE funding priorities 2015

(only for PP & ApP)

Priority 1: (obligatory contributions, common funding proposals of LHC experiments)

- Maintenance & Operation of the LHC detectors
- LHC Computing

Priority 2:

- Consolidation and further Upgrades of the LHC detectors (Phase 1 and Phase 2) and consolidation and R&D for the LHC accelerator including luminosity upgrade
- Large ApP projects (CTA, DARWIN/XENON)
- Internationally approved neutrino oscillation experiments and R&D aimed towards neutrino detectors in the context of the CERN neutrino platform

Priority 3:

- Further CERN approved and recognized experiments
- R&D for the next generation of accelerators
