

Results of the Plenary Session 2010 on 23/24 August 2010

Time/place of the meeting:

Paradieshotel Rotschuo Gersau, 23 August 2010 (10h) – 24 August 2009 (12:30h)

Conference programme see Annex 1.

The individual talks can be found under <http://indico.cern.ch/conferenceTimeTable.py?confId=93290#all>

This document is not meant as abstract or summary of the individual talks, but reports only the administrative activities dealt with by the Plenary session.

1. CHIPP elections

On recommendation by the CHIPP Board and after having considered the candidate's CV, the CHIPP Plenary session approved unanimously the extension of the mandate of Michele Weber as Swiss ACCU representative for the period 2011-2012.

The ACCU representative invited the members of the Plenary session to interact with him and to signal items to be discussed at ACCU.

2. CHIPP Prize Award

The CHIPP Prize for the best PhD student in experimental or theoretical particle physics was awarded for the third time. Out of three candidates and following the procedure published on the CHIPP website, the CHIPP Board selected Alexander Kish from University of Zurich. The laudation says: "For his excellent experimental work and original contributions in the field of direct dark matter detection".

The Plenary was informed about the selection and the winner presented his current research activity.

3. CERN

The CERN scientific delegate invited the members of the Plenary session to interact with him at any time if they wished to have more information from the Council.

4. ECFA

The ECFA representative invited the members of the Plenary session to contribute to the discussion about the creation of two new panels (one for Detector RD, one for Neutrino Studies) by contacting the corresponding points of contact.

5. CHIPP

The Chair invites the theorists to be more active and more involved in CHIPP activities, and suggests tightening the network with astrophysics. Concluding, he thanks the Board, the EB and the Administrator for their work.
