

SOGAR 2015

Geneva, 21 – 23 January

Searching for the sources of galactic cosmic rays

Topics

- Galactic cosmic rays: spectrum / composition / anisotropy
- Modeling: particle acceleration and propagation
- Multi-wavelength and Multi-messenger search for cosmic ray sources
- The galaxy in gamma rays
- The future of gamma ray astronomy

Scientific Organizing Committee

Chairs: E. Prandini & S. Toscano (ISDC, Switzerland);
T. Courvoisier (ISDC, Switzerland),
